Canners Meet In Cincinnati

TO DISCUSS MATTERS OF INTEREST TO THAT INDUSTRY—THE BUSINESS SESSION OPENS TO-MORROW.

CINCINNATI, O., Feb. 3.—Cincinnati is today the host to hundreds of canners of fruits, fish, meats and vegetables, here from all parts of the country, from Maine to Alaska, to take part in the first annual convention of the National Canners' association and allied industries. The National Dried Fruit Brokers' Association, the National Wholesale Grocers' Association and the Canning Machinery and Supplies Association are also represented. The latter organization to-day opened a public exhibition in Music hall, where canning machinery is shown in full operation.

To-day was devoted to the reception of the delegates to the convention at the headquarters, Hotel Sinton. The formal opening of the convention will be held to-morrow morning, when Mayor Leopold Markbreit will deliver an address of welcome.

The attendance during the week promises to be the largest on record at a meeting of this kind, because of the importance of the various subjects to be considered. These have to do in part with the food law questions at issue between packers and jobbing grocers, and the probable effect of the financial situation on the business of food packing.

Delegates to the convention report that the canning industry is sound and strong. Stocks of canned goods of 1907 production now remaining in packers' hands are very small. All the prophets are predicting a close clean-up of all lines, with the possible exception of tomatoes. It is conceded that there was an unusually large tomato pack last year and that it may be impossible to dispose of the stock before the 1908 pack appears on the market.

Many cities have been mentioned for next year's convention of the canners, among them Baltimore, Kansas City, Boston and Louisville. It is probable that the convention will be asked to name the city in which the 1909 meeting is to be held.

COUNT BONI AGAIN

IN THE LIMELIGHT. PARIS, Feb. 3.—Count Boni de Castellane, once famous as the husband of Mme. Anna Gould, will again

shine in the Parisian limelight to-morrow, when he will appear in the correctional court to answer to the charge of having assaulted his cousin, Prince Helle de Sagan, in the church of St. Pierre de Chaillot on January 2. The trial was originally set for last month, but was postponed.

Count Boni does not deny the charge, but alleges provocation. He admits that he had an altercation with his cousin and that he kicked and beat him and spat in his face. It is generally believed that the quarrel was the outgrowth of the attentions that have been paid by Prince Helle to Mme. Anna Gould. There have been frequent rumors that the former wife of Count Boni intends to marry the dissolute prince. This was resented by the count, who is known to entertain hopes of effecting a reconciliation with his wealthy ex-wife.

BRICK MAKERS IN SESSION.

COLUMBUS, O., Feb. 3.—The twenty-second national convention of the American Ceramic Society and the National Paving Brick Manufacturers' Association opened here to-day for a session of one week. Although the two organizations are separate and hold separate meetings, they annually meet in the same city at the same time. During the week, the Ohio School for Clayworkers, in charge of Professor Orton of the Ohio State University, will keep open house. Demonstrations of advances made by the school since it was organized will be made for the benefit of the visiting brick manufacturers.

Columbus was selected as the convention city because of the fact that it is the capital of the chief clayworking State of the Union. The government statistical chart just issued shows that Ohio maintains its position as the leading State in the Union in the production of pottery, brick, sewer pipe and all other clay products, turning out annually more than 19 per cent. of all the clay products produced in the country.

The members of the American Ceramic Society held their first session this morning, and will hold additional meetings on Tuesday and Wednesday. The National Brick Manufacturers' sessions will begin Wednesday afternoon, in the parlors of the Southern Hotel.

KANSAS CITY BUBBLE SHOW.

KANSAS CITY, Mo., Feb. 3.—Convention hall is to-day the scene of the opening of the annual automobile show of the Kansas City Motor Car Dealers' Association. The exhibition will extend through the week and is expected to attract enthusiasts from all over the southwest. In number of entries the show is the biggest of its kind ever held west of the Mississippi. Convention hall has been beautifully decorated for the event and presents a magnificent spectacle.
